

HELLO!

I'm glad to meet you!

PROFILE

After 16 years in Graphic design I am looking for a new opportunity. I would love to join a dynamic creative team. I like when the challenges become beautiful pictures. Graphic design and photography are my passion and something to live for.

PROFESSIONAL EXPERIENCE

Senior Graphic Designer

Sirma Solutions | 2001-present

As a Senior Graphic Designer in a large software company I've been responsible for all kind of graphic materials from brand design to application layout for the company's and client's products of Sirma Group Holding. I've participated in discussions from the very beginning of the most of the projects. My responsibilities for some of the projects were to manage external contractors. In 2015, I was involved in all steps of development of an image-processing application.

Freelance Photographer

Globetrotter Magazine | 2008-2009

Globetrotter is the Bulgarian Volvo Trucks brand magazine. I had to create some photo-stories and CVs for local articles. The shooting locations were across the country, and I had to take photos of large tonnage trucks and earth moving machinery.

Web Designer

M3 Communications Group, Inc. | 2000-2001

I started as a junior web designer and I learned a lot about HTML and CSS by working on several web-sites for the company and for customers.

Post Print

Iktus Print | 1999

This job was my first opportunity to apply in practice everything I had learned at school. Iktus Print was a small print house which produced a lot of prints. I was responsible for after-print finishing, but I also passed training in prepress and everything related to the production process.
