Sirma Mobile

### Video Streaming Multicast and Video on Demand

Live stream or upload your video content to deliver spectacular video to your audience!

With our platform, you can provide professional 24/7 real-time streaming, or upload, manage and deliver on-demand streaming video of highest quality.

We support multiple devices - smartphones, tablets and traditional PCs.

### Real-Time Mobile Streaming

Real-time mobile streaming enables you to stream live audio and video content directly from a mobile phone or tablet to a multicast channel.

You can quickly and easily share spectacular live content with your audience wherever you are.

### Why Us?
